1965 SOONER MEDIC

There are men and classes of men that stand above the common herd; the soldier, the sailor, and the shepherd not infrequently; the artist rarely; rarelier still, the clergyman; the physician almost as a rule. . . . Generosity he has, such as is possible to those who practice an art, never to those who drive a trade; discretion, tested by a thousand embarrassments; and what are more important, Herculean cheerfulness and courage.

The People of the State of Oklahoma voted and passed State Question 411 on December 3, 1963, authorizing seven million dollars of state funds for the construction of a modern six hundred-bed teaching hospital at the University of Oklahoma School of Medicine. These funds will be matched by federal funds for the construction of the hospital and for

future development of the Medical Center complex.

It is our hope that continued growth of this medical center will be made and that it will maintain its recognition as an excellent teaching center with the care of the patient being of primary concern.

GOV. HENRY BELLMON smiles his approval as he signs into law a bill passed by the legislature.

OKLAHOMA State Regents for Higher Education include Wharton Mathies, Guy M. Harris, Donald S. Kennedy, Bob F. Allee, Mrs. S. F. Ditmars, R. L. Crowder Jr., E. T. Dunlap, chancellor; William T. Payne, John J. Vater and G. Ellis Gable.

State Regents Prescribe College Standards

DR. E. T. DUNLAP is chancellor.

The Oklahoma State Regents for Higher Education serve as the supervisory and fund-allocating board for all Oklahoma junior colleges, senior colleges and universities supported wholly or in part by state appropriations.

The State Regents' specific powers granted by the Constitution include prescribing standards for each institution, determining functions and courses of study, granting degrees and other forms of recognition for completion of courses, establishing fees and recommending to the legislature budgets for the 18 colleges and universities and the 7 constituent agencies of the state system.

Serving as chairman of the State Regents this year is John J. Vater, Enid. The other regents are Mrs. S. F. Ditmars, Muskogee; William T. Payne, Oklahoma City; Wharton Mathies, Clayton; Robert Allee, Elk City; G. Ellis Gable, Tulsa; R. L. Crowder Jr., Tonkawa; Donald S. Kennedy, Oklahoma City; and Clyde A. Wheeler, Tulsa.

Dr. E. T. Dunlap is chancellor and T. G. Sexton is administrative assistant.

University Regents Govern OU Affairs

The government of the University is vested in the Regents of the University of Oklahoma, a board which consists of seven members appointed by the Governor.

Each member is appointed to serve for seven years except when appointed to fill an unexpired term. The members of the board serve without pay.

The Regents appoint the University President, and on his recommendation, appoint and fix the salaries of all faculty members and other employees. With the approval of the Oklahoma State Regents for Higher Education, the OU board approves changes in requirement for admission and graduation, degrees offered, and the fees and expenses.

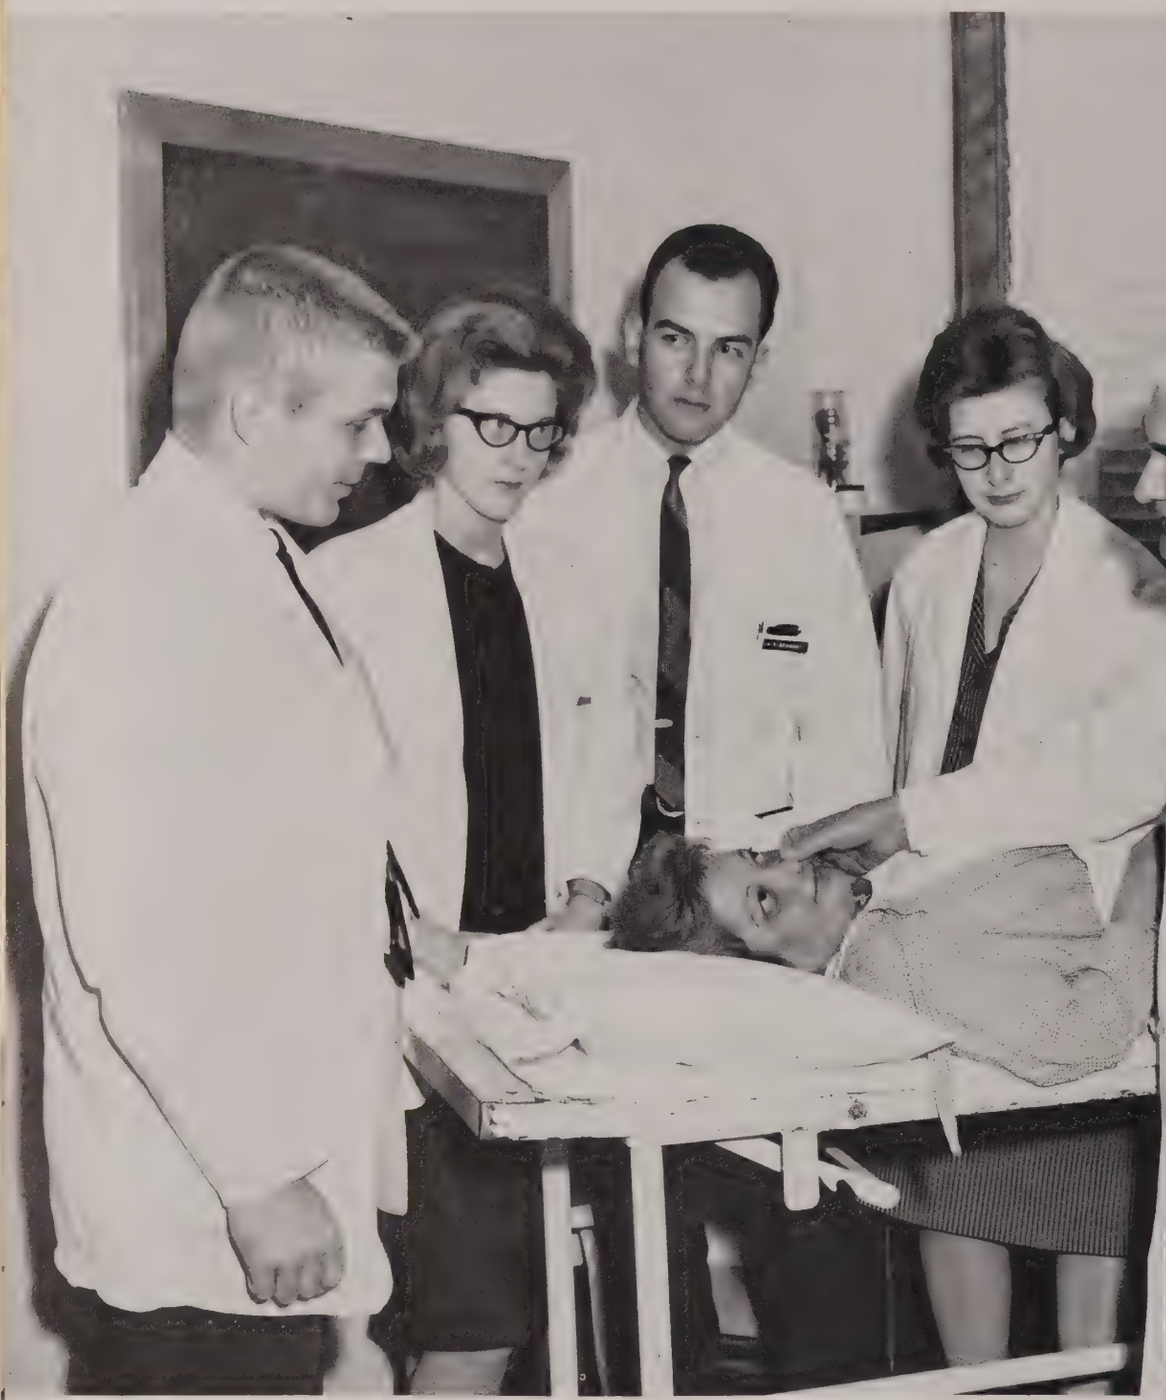
Serving as officers of the Regents this year were Eph Monroe, Clinton, president; and Julian J. Rothbaum, Tulsa, vice president. Emil R. Kraettli, Norman, has been secretary of the board since 1919.

Other members are Dr. Mark R. Johnson, Oklahoma City; James G. Davidson, Tulsa; John Houchin, Bartlesville; Quintin Little, Ardmore; and Reuben K. Sparks, Woodward.

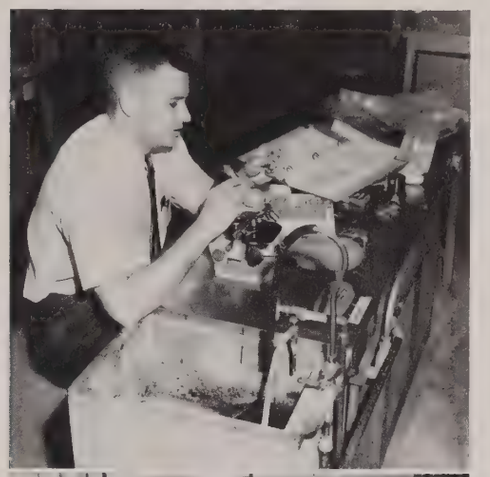
JULIAN J. ROTHBAUM and Eph Monroe hold top offices.

ATTENDING a monthly meeting of the University Board of Regents were Eph Monroe, Julian J. Rothbaum, Dr. Mark R. Johnson, James G. Davidson, Dr. George L. Cross, president of OU; Quintin Little, John Houchin, Reuben K. Sparks and Emil R. Kraettli.

DR. GEORGE L. CROSS pauses in his busy day to observe the growth of the University since his coming to the campus 21 years ago.



Medicine



Dean of the School of Medicine

On September 1, 1964, Dr. James L. Dennis became the new Dean of the School of Medicine, succeeding Dr. Joseph M. White Jr., interim Director and Dean since Dr. Mark R. Everett's retirement from the dual post at the end of the 1963-64 academic year.

Dr. Dennis, a 1940 graduate of OU Medical School, came here from the University of Arkansas Medical Center, where he was asociate dean, in charge of clinical instruction and professor of Pediatrics.

In addition to his new title of Dean of this medical school he holds the academic position of professor of Pediatrics. Dr. Dennis is also an editorial adviser of *GP* and *Pediatrics* medical journals.

Aesculapian Awards

Gunter Hasse, William S. Middleton, William E. Jaques

The Aesculapian Awards for excellence in teaching were presented to three outstanding Medical Center professors.

Gunter R. Hasse, M.D., professor of Neurology, now associated with Temple University School of Medicine as professor and chairman of the department of Neurology, received the clinical year's Aesculapian Award.

William S. Middleton, M.D., visiting professor and Chairman of the department of Medicine from Veteran's Administration Hospital in Madison, Wisconsin, received the first special Aesculapian Award for his outstanding contributions in teaching and medicine during his year's stay.

William E. Jaques, M.D., professor and chairman of the department of pathology received for the second time the pre-clinical year's Aesculapian Award. Dr. Jaques will journey to Formosa next year for a year's stay as visiting professor of Pathology.

The University of Oklahoma Medical Center School of Medical Technology is affiliated with over 15 colleges or universities in a degree program that prepares the student (after completion of three years in an approved university) to acquire a B.S. academic degree from the parent institution, as well as the professional MT (ASCP) certification given to graduates who pass the examination of the Board of Registry of Medical Technologists of the American Society of Clinical Pathologists. Twelve students are currently enrolled, graduating June 1965.

The 1965 School of Medical Technology begins August 30, with graduation one year later in 1966.

Student Council

JIM TODD, President

The Student Council is the duly elected governing body of the students at the University of Oklahoma School of Medicine. It is comprised of the class presidents and two Student Council representatives from each class and one representative from the Graduate School. Dr. Richard Marshall, Assistant Chief of Medicine at the Veterans Administration Hospital is this year's faculty adviser. Dr. Phillip Smith, Associate Dean of Student Affairs, provides liaison with the school administration.

Some of the continuing functions of the Student Council are administration of the honor system, sponsorship of the All School Dance, Gridiron, the annual Aesculapian Awards and the Sooner Medic.

This year's Student Council is headed by senior Jim Todd.

The spirit of AOA is set forth in its motto, "To be worthy to serve the suffering." The most prominent requisite of membership is high scholarship in a broad sense. Selection to the society is also based upon personal honesty and leadership, as well as promise of future achievement in medicine.

The spring AOA lecture was presented by Dr. Francis Moore, Mosley Professor of Surgery, Harvard University School of Medicine. The announcement of new members was made and they are: Richard Medlock, Kin Pirtle, Jim Todd, Kent Potts, Jim McMurry, Marvin Weisbard, Bob Carter, Jim Henry, Mary Saddoris, and Teresa Stacy.

SAMA — WASAMA

The OU chapter of the Student American Medical Association completed its fourteenth year in 1964-65. In addition to providing for the needs of the professional organization for medical students, the SAMA annually brings to Oklahoma a distinguished speaker for the fall banquet sponsored by the Oklahoma State Medical Association. The all-school Christmas Dance is also sponsored by SAMA.

Jim McMurry, president, was elected Regional Vice President and a member of the National Executive Council at the national convention last year. Also Jack Connally was selected to serve as a member of the National Standing Committee on Medical Education and Graduate Training.

In 1955, Mrs. G. H. Garrison along with Mrs. J. P. Luton and Mrs. J. P. Bell organized the first medical student wives club in the United States. This was done under the sponsorship of the Women's Auxiliary of the AMA, thus giving birth to WASAMA. Since its beginning in Oklahoma City the organization has grown to a present total of 42 chapters throughout the nation.

Monthly meetings are held in the homes of physicians in Oklahoma City where lectures are given by guest speakers to better prepare the student spouse as a future physician's wife.

Alpha Epsilon Iota

TERESA STACY, President

Alpha Epsilon Iota was founded 72 years ago at the University of Michigan. Nu chapter was established at the University of Oklahoma in 1921.

Monthly meetings, conducted in homes of alumnae, afforded enjoyable opportunities for students and alumnae to exchange ideas and "talk shop."

Activities included guest speakers, "get acquainted" freshman party, a pledge ceremony and formal initiation.

Emphasis is placed on fellowship, scholarship and the fostering of a spirit of moral and social helpfulness. Nu seeks to maintain the high standards of AEI, and in so doing, also maintain the standards of medicine.

The Alpha Lambda chapter was installed at the University of Oklahoma School of Medicine in 1912 and has since had many prominent physicians as active members. The Alpha Lambda chapter has by far the largest and strongest Alumni Association of any medical fraternity chapter.

Meetings are held monthly in which an informative speaker is featured. A dinner-dance is sponsored annually as well as an Annual Founders Day Banquet at which a nationally prominent figure speaks.

Officers of the Alpha Lambda chapter are: Randel Patty, archon; Stanley Brunn, vice-archon; Gary Rahe, secretary; and Bob Lee, treasurer.

Baptist Student Union

Meetings at the Baptist Student Union provide a time for medical and nursing students to renew the spiritual aspects of their lives. On Mondays, vesper services are held and on Thursday, Bible study. Kitchen facilities are available for informal get-togethers. One of the chief activities this year was to sponsor the Medical Mission Conference at the First Baptist Church. The conference was held in November.

HELEN E. PATTERSON, RN, AB, MA
Dean of the School of Nursing

School of Nursing

The School of Nursing, as an integral unit of the University, has as its primary purpose the preparation of graduates for professional nursing to contribute essential services to the community health agencies. A democratic atmosphere for learning is created by the faculty which reflects the use of sound educational principles and a concern for the total development of the student as a maturing individual.

Professional nursing is attracting more young men and women who are intellectually, emotionally, and physically qualified, as evidenced by the expanding program of increased enrolment and number of graduates.

Still there remains a great need for additional students who, upon graduation, may be instrumental in helping decrease the admitted shortage in this and allied disciplines. National cognizance has been given to this need. The school, with its significant role, is helping meet the health needs of society, continually striving toward the realization of this vital responsibility.

Student Council Directs Nursing School Activities

The Student Council acts as the executive council for the student body. It is composed of the student body officers, class presidents and club representatives. Voting on residence rules, approving outside projects, social and recreational activities, and improving student-faculty relations are among its duties. It meets monthly before student body meetings.

Delta Alpha Promotes Professional, Social Unity

Delta Alpha, honorary sorority for nursing students, lists as its primary activities sponsoring service projects and social functions for its members. Service projects include residence improvements, maintaining a residence library, and handling the nursing texts for classroom work. Requirements for membership include good ethical standing, professional attitude and high scholastic achievement.

Student Nurses Association Promotes High Standards

To encourage the student to promote and maintain high educational standards is the primary purpose of the Oklahoma State Student Nurses' Association.

The organization also tries to stimulate an interest in and an understanding of the current problems affecting the nursing profession not only in the state but nationwide.

Alumni Association Advances School, Profession

The Alumni Association of the University of Oklahoma School of Nursing is an active and interest-provoking organization. Its members meet bimonthly to conduct business meetings and to stimulate their interest in professional trends in nursing today. To provide the members with a more well-rounded life, the meetings often include a speaker representing a nonmedical field. The members feel this gives them a needed rest from their day-to-day duties.

Problems peculiar to specific fields of nursing often arise. When this happens, the association offers its help or supplies the proper resources for help in studying or solving the problem.

Its members are interested in recruiting qualified applicants for the school. One of the prime functions is in the area of recruitment. The association works to familiarize the public with the various aspects of training and education available both at this school and in the area of nursing in general.

A most important project for the group is sponsoring a scholarship program for selected students. This scholarship is one of the most applied for and coveted in the school. It is presented on the basis of need, scholastic achievement, other activities and personal qualities.

Each year the Alumni Association presents an award to the student considered the most outstanding in her graduating class. This much sought award is presented to the student at the annual banquet given to honor the graduating Senior Class.

Membership is open to all graduates of the University of Oklahoma School of Nursing. Automatic membership is conferred on all graduating seniors for one year following their graduation. This is to promote their interest, in the hope that it will continue into future years.

"IT'S THERAPY," rationalize these junior students.

"OH NO, he's early!" screams Darlene to Alzada.

"GUESS WHAT we just studied," harmonize Pat, Carol and Ann.

BOY! That evaluation sure shook Jane Mollen and Jackie Jones into action, as they both decide to hit their books harder.

DARLA FRIEDLINE applauds victor Janie Martin, who reigns as the new Miss OU School of Nursing for 1965.

OKAY, everybody change partners.

The Oklahoma State Medical Association

Founded sixty years ago by the amalgamation of the medical societies of Oklahoma and Indian Territories, the Oklahoma State Medical Association is dedicated to the advancement of the art and science of medicine. Membership in this voluntary professional society affords a physician the opportunity of sharing in the collective activities of Oklahoma Medicine—and places upon him the responsibilities of maintaining high professional standards and upholding the heritage of an organization primarily motivated by its sincere interest in the public health and welfare.

601 N. W. EXPRESSWAY — P. O. Box 18696 — OKLAHOMA CITY

The following friends, members of the faculty, and alumni of the University of Oklahoma, School of Medicine, proudly take this opportunity to offer their congratulations to the members of the graduating class upon the successful comple-

At hospitals and medical outposts a long way from the classroom, medical students learn to cope with unfamiliar diseases; help to provide much-needed medical services to people in underdeveloped areas of the world; and contribute to international understanding and good will.

This unusual opportunity to work and study in foreign countries is offered to students through the Foreign Fellowships Program of Smith Kline & French Laboratories. Administered by the Association of American Medical Colleges, the program has enabled 123 students to work in 40 different countries during the past four years. Junior and senior medical students are eligible to apply for Fellowships, which provide for an average of 12 weeks' work abroad to be completed before internship.

Students who are interested in Fellowships should apply through the deans of their schools.

To Meet The Need **THAT MORE MAY LIVE LONGER**

A THREE FLOOR ADDITION TO THE RESEARCH HOSPITAL BUILDING WAS COMPLETED AND OCCUPIED EARLY IN 1964. A research organization in the health sciences discharges its obligation to its supporting public only if it meets the challenges of the times, by applying itself to the more pressing health problems and taking advantage of the most modern tools at the disposal of scientists. Generous contributions from Oklahoma citizens and firms, and grants from the National Institutes of Health made the hospital addition possible. It provided 29 more laboratories, modern facilities for out-patient care, an auditorium and seminar rooms and additional office and storage space. The hospital now has 20 patient beds.

THE KEY TO PROGRESS / ***an abundance of Natural Gas***

Oklahoma Natural Gas Company's integrated pipeline system is an important segment of the gas industry in the State of Oklahoma. However, we cannot think of the gas industry without first recognizing the petroleum industry as the foundation of its whole structure. ■ We prefer to believe that our operations are part of a united industry — an industry possessing harmonious relationships among all its segments. ■ Such a relationship among producers and pipelines does indeed enable our company to provide an abundance of natural gas; working together we complete a picture of economic stability that will maintain a growing market. This, in essence, is the key to progress for all Oklahomans.
